PHILOSOPHY of COMPLETE RECREATION

"I don't want to be a professional; I just want to learn as hobby sake..!" - **Anonymous student**

The above is the most common statement we hear 9 out of 10 times while admitting a student.

Hobby Playing is a very wrongly used term, it's more like a shield to no practice, and no commitment but truth is that either one will play it or one will not be able to play it.

To us hobby just means that you are not earning from it but that is not a compromise or compensation with learning anyhow. Is it that?

Should we not let a student play few simple tunes and songs in rhythm in months or years just because one say I am a hobby player or should we deliver half hearted, half committed, half dedicated, half music information and not even complete rudiments because they say they want to learn for hobby?

Be it any subject as language English, Swimming, Exercising, Sports or music, the basic learning, the rudimentary education needs same way of deliverance, sufficient basic grammar to know about. Whereas professional training, professionalism is all together different that require advanced learning, professional industry exposure, consistent professional industry learning, years and decades of dedication, experience to bring specialization in self for making out livelihood and that within the available industry format, opportunities carrying limited, unlimited income scopes.

"It could be risk to put tag professional until one give at least a decade to music"

"Please note that this program cover complete guitar learning package, advised for every beginner i.e. you will be informed about most knowable rhythms, scales, and self development formulas upto a level to let you become your self teacher.

It's not a professional Guitaring program rather complete guitar rudiments/understanding and recreation program."

COMPLETE GUITAR RECREATION PROGRAM

PROGRAMS & INFORMATION

ELIGIBILITY

Anybody who wants to learn guitar and music can participate in this program.

AGE CRITERION

Minimum age for Registration in Program is 10 years and there is No Maximum Age Limit.

HOW TO APPLY

Step # 1, Collecting the Prospectus and Application for the batch

- Prospectus + Registration form can be collected as free via online only.
- An interested student can apply for the course by filling the application either as online or offline via a basic application fee of Rs. 1000. (Refundable if student is not selected for the batch).
- Applicant can submit the Application Fee as Bank Transfer in A/c, Cheque in favor of 'Guitarmonk Entertainment Private Limited' or Online Payment, Cash or Draft. All Payments are to be payable at New Delhi only.
- Based on application, students will be selected for registration in program. Selected students will be called for batch finalization 30 days before the program. Please Note that Application doesn't mean confirmation of seat of student. Guitarmonk will have full discretion on student selection which is based on batch strength, age groups parameters selection etc. This course has limited student's admission only so we take care that not all students are admitted immediately. This practice is to ensure and maintain value in the program.

Step # 2, Submitting the Application and Registration of Student

An application for the program must be made via an official Registration process only (also available at website - www.guitarmonk.com). Student can submit the filled application form at the mentioned locations or via website. If a student has not submitted the application fee then they need to do it for consideration in the batch.

Step # 3, Appointments for Admission of Registered Student

Received applications are shortlisted and selected prospects will be called for finalization of batches and admission.

Students are requested to admit themselves for the program when they are called. They can also ask any question or forward their doubt on email and telecom in case if they have any.

Please Note: Admission in the program is based on first come first serve basis and fixation of batch. Each batch will entertain limited seats and limited students in a location considering mentor's limitation to hold sessions. Each year there will be 7-8 batches maximum by the mentor @ diversified locations. Students are requested to confirm their admissions immediately so that they can be part of the program in the relative centre as this is a benefit course. Please note that if students are more for a batch then admission is strictly under guitarmonk discretion. Date may vary to meet requirements.

COMPLETE GUITAR RECREATION PROGRAM

PROGRAMS & INFORMATION

HOW TO APPLY

Step # 4, Admission and Confirmation of Seat - Selected candidates will be required to submit the fee for confirmation of seat

MODE OF PAYMENT

Students can submit the Admission fee as Demand Draft, Cheque, Cash or Online Transfer in favor of 'Guitarmonk Entertainment Private Limited', payable at New Delhi only.

BROAD OBJECTIVES & ATTRIBUTES OF GUITARMONK PROGRAMS

- **Recreation** - Offering it as a Stress Management, Engagement, Joyful and Recreation Activity
- **Synthesized Learning** - Offer it as a complete knowledge pack that gives student a return and level i.e. value for time and commitment. Achieving capable learning and playability. GM Programs and guitar education system hold more than decade of expertise on how to make guitar learning effective and simpler.
- **Health Benefits** - Reconnecting and Achieving Social, Psychological, and Physiological benefits associated to Music. (Read about benefits associated to instrument learning in following pages)
- **Best Learning Experience** with the best mentors, best curriculum without making any compromise to quality and learning value.

Why we advise you to be part of Complete Recreation Program?

Complete Recreation Program is designed with a perspective to create benefit for students who are ready to literally learn and get it played.

We call this course as a capable guitar playing program. Moreover this course is offered in support & associations with our corporate & education associates so this course is kept at the lowest pricing & with sponsorships values, so it's not only economical in comparison to standard music learning charges, but it also connect you free learning kit, online learning facility, professional mentor level and value etc.

This course is also designed with a specialty and condition of Best Quality Mentorship i.e. this course will be taken by only specialized and specific mentors & not regular mentors. Professional mentors generally don't take rudimentary lessons but in this course they will do. (Read more in FAQ section)

"Scientific evidence proves that an education in the arts makes better math and science students, enhances spatial intelligence"

Michael Greene, Recording Academy President and CEO at the 42nd Annual Grammy Awards, February 2000.

COMPLETE GUITAR RECREATION PROGRAM

PROGRAMS & INFORMATION

COMPLETE RECREATION PROGRAM

COMPLETE GUITAR RECREATION PROGRAM

PROGRAMS & INFORMATION

FREQUENTLY ASKED QUESTIONS

How much time you need to invest on learning & Practice?

Min 20-30 minutes daily practice is required while you are developing the program under a teacher.

Why just 80 sessions are required and not less i.e. 20, 30, 40?

Take any training program be it swimming, gym or language or sports activity. You will observe that a minimum 3 to 6 months schedule is followed to achieve a basic level. Even qualified gym coach would advise you to invest minimum 3-4-6 months for a bit of muscle growth. The philosophy behind this regularity is consistent development of finger muscles via a disciplined process. Moreover consistency plays a vital role in developing and programming the mind and the body.

The 80 session program covers most of the concepts required for a guitar lover, player and which are essential for complete rudimentary training. Students opting for lesser than these courses will risk on incomplete knowledge and that is dangerous to their experience. For example if we have to cover some important topic or concept as swing and basics of notation reading, we cannot endorse it to a half way student, we need time to teach it and these concept makes our student completely capable to read any music and play all swing style songs. We cannot skip these styles in learning.

Why just 80 sessions are required and not more?

As we mentioned that it's an organized learning. You have curriculum in hand, reference written material and you don't have to waste your time in writing topics in class but meditating upon intensive topics & concepts with the teacher and that pace up your learning. There may be students who want to go slower but their may be some who will run more fast. We already described that beginning start with the program and don't end here. Imagine as if you are planning to be a speaker, or a boxer or weight lifter or a swimmer and in this case a musician meditating, fun loving, self-developing and entertaining, composing in guitar. Isn't this what our objective is? This program is going to cover your all rudimentary moves, tricks, stamina workouts and knowledge so that you become your own teacher and is no longer a novice in the arena. You will always keep building-up; developing and improvising on yours own with things you will learn in this program.

PROGRAMS & INFORMATION

FACTS ABOUT RIGHT LEARNING

NEVER LEARN LOOSELY - Any activity which is loosely placed be it music or sport say carom, table-tennis, guitar or gym can only helps in shifting the mental focus but not making out the required output and benefits we want.

COMMIT TO TRAINING - why most students hesitate to join committed learning is because they either doubt training/trainer (so analyze your training system), or they are themselves indecisive (missing that spark for music, should talk to mentors) or they don't value their dream as much i.e. when they say they don't have budget or bargain. Training commitment is like a relationship, though short term but it requires your commitment.

GETTING TALENT IS A TIME BOUND ONE TIME EFFORT - It's also economically, professionally and productively viable to start and finish i.e. appointing a program in a TIME-FRAME. In this guitar learning you become your own teacher after your complete it. Loose course can never create that fire which comes via consistency.

RESPECT MENTORS & EDUCATION SYSTEM - Analyze hardcore on your trainer but once done, surrender to them and absorb them. Remember the more you do it the faster you will learn it. This means that you should let the mentor drive you in a way he wants because he knows the way to give you the best, when and how. Trust them and rejoice your results.

Researchers at the University of Montreal used various brain imaging techniques to investigate brain activity during musical tasks and found that sight-reading musical scores and playing music both activate regions in all four of the cortex's lobes; and that parts of the cerebrum are also activated during those tasks

MUSIC PARTICIPATION & FAMILY BENEFITS

For Your Child - Problem solving, Teamwork, Goal setting, Self-expression, Coordination, Memory skills, Self-confidence and esteem, Concentration, Poise

Organizational Skills - How to organize tasks, Time-management

For Your Family - Musical event attendance, Family music making, performing for and with family and friends, a sense of pride and accomplishment

"The man that hath no music in himself, nor is not moved with concord of sweet sounds, is fit for treasons, stratagems and spoils"

WILLIAM SHAKESPEARE

MUSIC CLASS IN CORPORATE CONTRIBUTES IN

Improved Employee Engagement , Reduced Absenteeism, Enhanced Customer Service, Improved Performance, Reduced Attrition, Enhanced Quality of Work, Improved Team Interaction, Reduced Grievances, Reduced Tardiness

PROGRAMS & INFORMATION

5 REASONS TO PLAY A MUSICAL INSTRUMENT

Learning to play a musical instrument offers a lot of benefits. Believe that if there's one thing you should learn in your lifetime, it is how to play an instrument. Here are 5 reasons why:

1. Playing a Musical Instrument makes you Smarter

Many studies have been conducted on the effects of music to the brain. Scientists say that children who are exposed to music or those who play an instrument do better in school than those who don't. Recent research suggests exposure to music may benefit a child's reading age, IQ and the development of certain parts of the brain. Adults can benefit from learning to play an instrument too because it helps the mind to be alert and active eventually helping to sharpen the memory.

2. It Teaches Discipline

Learning to play an instrument is like learning to speak another language and it can be challenging at times. One of the qualities music players possess is discipline. You have to be disciplined in order to master playing your instrument. You have to set time each day to practice, practice and practice some more.

3. Playing a Musical Instrument Relieves Stress

We all have days when we are so stressed out and we just want to take a break from it all. Have you ever noticed that when you hear soft, soothing music you feel more relaxed? Playing an instrument can do that and more, especially if you're the one playing. Music is one of life's simple joys, it helps calm the mind.

4. Sense of Achievement

If you're a beginner learning to play your 1st piece, it can be frustrating. But once you've mastered it, the satisfaction you'll feel is priceless. Never mind if it's just a simple piece, believe me you'll never forget the first piece you've mastered. You are one more step closer to achieving your goal i.e. certainly something to be proud of.

5. Playing a Musical Instrument is Fun

Sure it can be a lot of hard work but there is no denying playing an instrument is fun. Once you get better at it, opportunities will arise for you to share your newly learned skill with your family and friends. Who knows, you may also consider playing professionally in the future. Playing a music instrument opens up a lot of good possibilities that will surely enrich your life.

Music has a great power for bringing people together. With so many forces in this world acting to drive wedges between people, it's important to preserve those things that help us experience our common humanity."
